

WI-FI CONNECTION TO A HIGHER POWER

This category is the gift of a bridge of light connecting you to a “sound” relationship with Spirit. (however you personally define “spirit.”) Music that touches our soul can quickly magnify an already high energy, or help lift up a low one. When coming from such a place there is no room for worry, only miracles to be created. Often we desire an outlet for a celebration of joy, or need special relief that no common energy can satisfy. What constitutes “spiritual uplifting music” is a very personal choice. If you don’t automatically have a spiritual song list to reach for, many of these will offer ideas of how we’re surrounded by music that confirms the soothing or charged message of “we are not alone” and a deep knowing “all will be well.”
